# The GUMOTEX Group

GUMOTEX, akciová společnost (hereinafter referred to as “the Company”) and its subsidiaries (hereinafter referred to as “the Group”) is a renowned processor and producer of rubber and plastics, and a significant supplier of parts for the automotive industry.

In its production program, the Coating division offers a wide range of rubber compounds and coated fabrics, which are the basis for the production of a wide spectrum of products – inflatable cores for bed mattresses, rubber inflatable boats, special rescue systems, i.e. inflatable tents and halls, decontamination workplaces, flood barriers and other special products.

The Automotive division is focused on the production of parts for the automotive industry, produced using polyurethane foams, expanded polypropylene, and various types of plastics and rubber. The Company belongs among the leading European manufacturers of sun visors.

The Group’s manufacturing program also includes the production of expanded polypropylene and single-use automated machinery.

The GUMOTEX Group consists of the following companies:

- **GUMOTEX, akciová společnost**, based in Břeclav (CZ), is focused on providing services within the GUMOTEX Group, the production of assembly jigs, single-use automated machinery, internal maintenance and equipment repairs, and property management.
- **GUMOTEX Coating, s.r.o.**, based in Břeclav (CZ), produces inflatable cores for bed mattresses, coated materials, rubber compounds, inflatable rubber boats, and products for emergency response services.
- **GUMOTEX Automotive Břeclav, s.r.o.**, based in Břeclav (CZ), is focused on the production of parts for the automotive industry, i.e. sun visors, car seat foam filler, absorption parts for car body work, etc.
- **GUMOTEX Automotive Jaroměř, s.r.o.**, based in Jaroměř (CZ), is focused on the production of parts and systems made from expanded polypropylene (PPE), soft (S-PUR) and integral polyurethane foams (I-PUR) for the automotive industry.
- **GUMOTEX Automotive Třebíč, s.r.o.**, based in Třebíč - Kožichovice (CZ), is focused on the production of expanded polypropylene (EPP) and EPP parts for the automotive industry.
- **GUMOTEX Automotive Myjava, s.r.o.**, based in Myjava (SK), is focused on the production of plastic molds mainly for the automotive sector.
- **ZPV Rožnov, s.r.o.**, based in Rožnov pod Radhoštěm (CZ), is focused on the production of textile, rubber and TPE mats, mainly for the automotive industry.
