

## IMS Scope of the GUMOTEX Group

### System definition of IMS validity

The IMS includes IATF 16949, ISO 9001, ISO 14001, ISO 45001, and is valid for all processes and activities that are defined and described:

- Process map of the GUMOTEX Group
- Process cards
- Follow-up documentation (management documentation, process documentation).

### Spatial definition of IMS validity

- All workplaces of the GUMOTEX Group according to the valid organizational structure addressing:

Organization	IMS Scope

**\*Note:** GUMOTEX Automotive Myjava, s.r.o. and ZPV Rožnov, s.r.o. are not responsible for and do not conduct product design and development activities (8.3).

ZPV Rožnov, s.r.o. 2 production sites: Televizní 2614 (1.Máje 2632 extension), Rožnov pod Radhoštěm 756 64, CZ

IMS also adequately applies to external spaces, which are not defined as workspaces of the GUMOTEX Group. They are used by employees, visitors, customers and other stakeholders, as appropriate.

### IMS applies to the following persons:

- Employees of the GUMOTEX Group
- Persons, who perform work for the employer based on agreements concluded outside the employment relationship
- Agency staff
- Persons who, with the consent of the employer, move around the premises and buildings of the GUMOTEX Group

The GUMOTEX Group's Integrated Management System is valid for all activities and services related to the production and services defined by the IMS scope. Exceptions for implementing the IATF 16 949 (chapter 8.3) standard for the plant in Myjava and Rožnov p. Radhoštěm affect neither the ability and responsibility of the Group's companies to ensure the conformity of services with demands, nor the ability to satisfy customer requests.
